EXPERIENCE

TELESKOP APP

FRONTEND DEVELOPER (OCT 2018 - CURRENT)

Teleskop.app is an internet and social media monitoring application. Users create custom streams by defining keywords and follow the content picked by Teleskop bots from web. I am responsible for frontend development of the web application in the project. I have used React, Next.js, React Redux and Chart.js as main frameworks/libraries.

FABRİKA MEDYA

FRONTEND DEVELOPER (MAY 2018 - CURRENT)

Fabrika Medya is a digital agency based in Ankara. I've participated in different types of projects such as e-commerce systems, governmental portals, company websites etc. as a frontend developer. I've set most of the projects on React along with Next.js for SSR.
